This tuckbox was generated by
software written by Michael King.
Source code is available at
http://github.com/kingmt/tuckbox_
generator and is licensed under
the GPL

This implementation is inspired
by the generator written by Craig
P. Forbes at
http://www.cpforbes.net/tuckbox.

1.5" x 3.5" x 0.75"

The box is based on a design by
Elliott C. Evans. See his page,
http://www.ee0r.com/boxes/ for
more information and assembly
instructions.

Go to
http://www.tuckbox-generator.net
to generate more box templates.
